DE statistics for the period from 13 December 2025 – 31 March 2026 are set out in the table below.

This is simple data and does not reflect the context in which the answers are compiled, e.g. many AQWs are complex in nature and require input from Arm's Length Bodies and partners across government. In those circumstances, it is not always possible to meet the required deadlines set by the Assembly to ensure that a full and accurate answer is provided.
