

Moneyhelper – Invite to test the new Pensions Dashboard

[MoneyHelper](#) – a government backed service run by the Money and Pensions Service – invites you to test the new **MoneyHelper Pensions Dashboard**.

## What is the MoneyHelper Pensions Dashboard?

Millions of people in the UK find it hard to keep track of their pensions, making it difficult to plan for retirement.

The new **MoneyHelper Pensions Dashboard** will bring information about them together in one secure place – including the State Pension and any that you may have lost touch with.

It will show you the value of their pensions today and at retirement, so you can get a clearer picture of your future finances.

## How you can make a difference

You're invited to join the MoneyHelper Research Panel.

If you join, you'll be invited to take part in research to make the dashboard as helpful and easy to use as possible.

Testing is in the early stages, so you may not see all your pensions in the dashboard just yet.

There are many ways you could help improve the dashboard – from conducting a short test of the service on your own and completing a survey afterwards, to attending an interview with a researcher

To say thanks, you'll receive from Moneyhelper

- **a high street voucher worth £50** if you take part in a session with a researcher
- **a £10 high street voucher** for shorter tasks, like completing a survey after testing the dashboard on your own.

Once on the panel, you may be invited to take part at any stage during this phase of testing, which is expected to last up to 9 months.

You can accept or decline the research invitation at any time. We'd love you to take part and help shape this brand-new service.
